

The “wonderbag” is designed for clubbing and shopping: Due to a particular composition of Polyamid and Lycra the bag is expandable and grows with its objects from the original size of 22x24cm.

The elastic belt will take up the body movement - thus creating a new wearing comfort. Every “wonderbag” will be supplied with a bag for the bag. At present you will get the bag in black with a black elastic belt or with a non elastic one striped in grey, black and reflecting silver.
